TABLE OF CONTENTS

PREFACE	VII
---------	-----

JOINT DISCUSSIONS

1. Galactic Structure in the Direction of the Polar Caps (edited by M.F. McCarthy and A.G.D. Philip)	3
CONTENTS	5
5. Stellar Atmospheres as Indicator and Factor of Stellar Evolution (edited by R. Cayrel)	99
CONTENTS	101
6. The Small Scale Structure of Solar Magnetic Fields (edited by F.L. Deubner)	219
CONTENTS	221
7. The Impact of Ultraviolet Observations on Spectral Classification (edited by L. Houziaux)	277
CONTENTS	279

JOINT MEETINGS

Observational Evidence of the Heterogeneities of the Stellar Surfaces (edited by M. Hack and J.P. Swings)	373
CONTENTS	375

CONTENTS OF VOL. 4 - PART I

INVITED DISCOURSES

J.-C. PECKER / L'Astronomie Infrarouge et les Poussières Galactiques

P. MORRISON / Astronomy and the Laws of Physics

C. SAGAN / Exploration of the Planets

JOINT DISCUSSIONS

2. X-Ray Binaries and Compact Objects
(edited by E.P.J. van den Heuvel)

3. Space Missions to the Moon and Planets
(edited by S.K. Runcorn)

4. Clusters of Galaxies, Cosmology and Intergalactic Matter
(edited by M.S. Longair and J.M. Riley)

JOINT MEETINGS

Prospects in Space Astrometry (edited by P. Lacroute)

PREFACE

It has become a tradition in the Union to publish the Invited Discourses and the Proceedings of the Joint Discussions held at a General Assembly in a separate volume entitled HIGHLIGHTS OF ASTRONOMY. This is the fourth volume of its kind and it contains some of the scientific highlights of the Grenoble General Assembly.

In order to reduce its size it was decided to publish its content in two separate parts. The part (I) contains the full texts of the Invited Discourses given by Prof. J.-C. Pecker and by Dr. C. Sagan, and an abstract of Dr. P. Morrison's paper, thus complying with his wish to forego publication of the full text of his Discourse. Furthermore it collects the proceedings of three Joint Discussions and one Joint Meeting all of which are related essentially to observations from space, to external galaxies and to cosmology. Part (II) contains the proceedings of the four Joint Discussions and one Joint Meeting related essentially to stars and the structure of our Galaxy.

Clearly Volume 4 (parts I and II) of the Highlights reflects only a part of the scientific activities which took place at the Grenoble General Assembly. Many more important papers and discussions were held during Commission meetings and joint meetings. They may be found in the Commissions' reports published in the Transactions Vol. XVI B, 1977. Furthermore, the proceedings of three joint Commission meetings on the topics "CNO Isotopes", "Supernovae", and "Topics in Interstellar Matter" are being published in separate volumes by the D. Reidel Publishing Company, and the discussion of Commission 10 on "How can solar flares be understood?" will be published in an issue of Solar Physics.

The new publication policy of the IAU to use for its publications the method of offset printing from camera-ready manuscripts requires a special effort from all authors and from the editors of the individual Joint Discussions and Joint Meetings. My sincere thanks are due to all those who made this special effort. I also wish to thank Mme. R. Bertschi and Mme. R. Läubli for their fine and most helpful cooperation in editing this volume.

Edith A. Müller
General Secretary

JOINT DISCUSSIONS

JOINT DISCUSSION NO.1

GALACTIC STRUCTURE IN THE DIRECTION OF THE POLAR CAPS

(Edited by M. F. McCarthy and A.G.D. Philip)

Organizing Committee

M. F. McCarthy (Chairman), R. Bartaya, J. Delhaye, T. Elvius,
C. Jaschek, D. H. P. Jones, I. King, L. Martinet, T. Walraven.

C O N T E N T S

1. GALACTIC STRUCTURE IN THE DIRECTION OF THE POLAR CAPS

M.F. McCARTHY, S.J. / Introductory Remarks	9
--	---

PART ONE

Galactic Structure at Lower z Distances - Space Densities
and Motions - The Solar Neighbourhood - M Dwarfs -
Missing Mass

Chairman: K.Aa. Strand

W. GLIESE / M Dwarfs at Lower z Distances	11
C. JASCHEK and B. HAUCK / Available Stellar Data in Galactic Polar Areas	21
W. GLIESE, C. JASCHEK, and M.F. McCARTHY / Bibliography on Galactic Structure in the Direction of Polar Caps	23
P.S. THE / M Dwarfs and the Missing Mass	25
D.H.P. JONES / Some Research Programmes into Galactic Structure at the Galactic Caps Under Way at the Royal Greenwich Observatory	27
P. PESCH / The Space Density of M Dwarfs - An Observational Program	29
D. WEISTROP / The Luminosity Function of Late-Type Main-Sequence Stars in the Direction of the North Galactic Cap	31
M. JOEVEER and J. EINASTO / Galactic Mass Density in the Vicinity of the Sun	33
N. SANDULEAK / The Frequency of Faint M Giant Stars at High Galactic Latitudes	35
GENERAL DISCUSSION OF TOPICS IN PART ONE	37

PART TWO

Galactic Structure at Higher z Distances - Space Densities
and Motions - Different Stellar Populations and Chemical
Abundances

Chairman: T. Elvius

I.R. KING / The Stellar Distribution Above the Galactic Plane: An Introduction	41
E.K. KHARADZE and R.A. BARTAYA / Some Results of Classification of Stars in Kapteyn Areas Applied to Galactic Structure in NGP	49
A. BLAAUW / Mean Chemical Abundance of the F Stars as a Function of Distance from the Galactic Plane	51
R.P. FENKART and U.W. STEINLIN / RGU Three-Colour-Photometry Towards the NGP: Halo-to-Disk Mass Ratio	
M. GRENON / Density Law, Vertical Distribution and Vertical Gradient of Metal Abundances for G and K Giants	55
T. MARKKANEN / Polarization Measurements and Extinction Near the NGP	57
K. Aa. STRAND, C.C. DAHN, and R.S. HARRINGTON / Parallaxes of Selected Stars Near the NGP	59
C.A. MURRAY / Progress Report on a Search for Parallax Stars in the Region of the South Galactic Cap	61
A. FLORSCH / Search for Large Radial Velocities in the Direction of NGP Using the Fehrenbach Techniques	63
R.F. GRIFFIN / The Gravitational Field of the Galaxy in the z Direction	65
R.G. KRON, LIANG-TAI GEORGE CHIU, and K.O. BROOKS / Berkeley Studies of Faint Stars at High Latitudes	67
T. OJA / Swedish Programmes Concerning the z Distribution of Stars	69
R.W. HILDITCH and G. HILL / Studies of A and F Stars in the Region of the NGP	71
A.G.D. PHILIP / The Distribution of Field Horizontal-Branch Stars in the Galactic Halo	73
A.R. UPGREN / A New Program to Determine $K(z)$ from Main Sequence Stars	75

CONTENTS	7
J. STOCK, W. OSBORN, and A.R. UPGREN / Objective-Prism Radial Velocities at High Latitudes	77
C. TURON-LACARRIEU / Discussion of the Calculation of the Density Law (Dz)	79
A.N. BALAKIREV / Motions of Near-Polar K-Giants Along the z Coordinate	83
GENERAL DISCUSSION OF TOPICS IN PART TWO	87

PART THREE

Summary and Conclusions - Present Results and Future Problems for Study

Chairman: B.J. Bok

W.J. LUYTEN / The Role of Proper Motions in Determining the Luminosity and Density Functions	89
A. BLAAUW / Concluding Remarks Part Two	95
M. MCCARTHY, A.G.D. PHILIP, I. KING, and U. STEINLIN / Current Results and Suggestions for Future Work	97
