CONTENTS

Introduction	I
Part A. History, Folklore, Biology	3
I. History of knowledge about Oestroidea	5
1. Antiquity and Middle Ages	5
2. From the 16th Century to the Systema Naturae (1758)	16
3. From the Systema Naturae to the revision of Bau (1906)	18
4. From 1908 to the classification of Townsend (1935-38)	21
5. From 1947 to the present	22
II. Popular knowledge about the Oestroidea	23
1. Utilization as food	23
2. Popular names	23
3. Folklore	29
III. Biology of the Oestroidea—The phenomenon of ag- gregation	31
IV. References	36
Part B. Systematics and phylogeny of the Oestridae	45
I. Key to subfamilies	47
II. Subfamily Cephemyiinae Townsend	49
1. Key to tribes	49
2. Tribe Cephemyiini Townsend	52
3. Tribe Pharyngomyiini Townsend	64
III. Subfamily Tracheomyiinae, new	67
IV. Subfamily Pharyngobolinae, new	70

V.	Subfamily Oestrinae Leach	71
1.	Key to tribes	71
2.	Tribe Kirkioestrini, new	73
3.	Tribe Rhinoeestrini, new	75
4.	Tribe Oestrini Leach	87
5.	Tribe Gedoelstiini, new	94
6.	Tribe Cephalopinini, new	96
VI.	Phylogeny of the Oestridae	99
1.	Morphological trends of the Oestridae	99
2.	Phylogeny of the subfamilies	100
3.	Phylogeny of the Cephemyiinae	100
4.	Phylogeny of the Oestrinae	102
VII.	Bibliography of Oestridae	108
Part C. Characteristics of the hosts of Oestridae		146
I.	List of present hosts	148
1.	Marsupialia	148
2.	Proboscidea	148
3.	Artiodactyla	148
4.	Perissodactyla	151
5.	Common names of the hosts	152
II.	General considerations about the hosts	154
1.	Marsupialia	154
1.1.	Generalities	154
1.2.	Palaeontological history	158
1.3.	Hypotheses on the origin of Australian marsu- pials	159
1.4.	Characteristics of Australian marsupials	160
1.5.	Characteristics of a marsupial host	165
1.6.	Implications in the case of the Eutheria	169
2.	Proboscidea	171
3.	Artiodactyla	172
3.1.	Classification	172
3.2.	Suborder Palaeodonta	172
3.3.	Suborder Suina	173
3.4.	Suborder Ruminantia	178
4.	Perissodactyla	197
4.1.	Suborder Ceratomorpha	197
4.2.	Suborder Ancylopoda	199
4.3.	Suborder Hippomorpha	202

III.	References	203
Part D.	Hypothetical history of Oestridae evolution	207
I.	Origin and diversification of the family	209
1.	Evidence obtained from the Tracheomyiinae	209
2.	Diversification of the family	210
3.	The Mesozoic hosts of Oestridae	213
II.	The problem of the present absence of Oestridae in South America	217
III.	The problem of the presence of Oestridae in Australia	223
IV.	Evolution in Africa	224
1.	The early hosts of African Oestridae	224
2.	Diversification of the African Oestridae	227
V.	Evolution in Eurasia and North America	231
VI.	References	233
	Abstract	237
	Index	239
