Contents

Part I Biochemical Conversion

- 1 Evaluation of Growth and Lipid Profiles in Six Different Microalgal Strains for Biofuel Production** 3
Kashif M. Shaikh, Asha A. Nesamma, Malik Z. Abdin
and Pavan P. Jutur

Part II Chemical Conversion

- 2 Physicochemical Assessment of Pumpkin (*Cucurbita pepo* L.) Seed Oil as a Viable Feedstock for Biodiesel Production** 19
Bichitra Bikash, Nabajit Dev Choudhury, Dilip Kumar Bora
and Kalyan Kalita
- 3 Performance and Emission Parameters of Single Cylinder VCR Engine Fuelled with Argemone Biodiesel and Blend with Diesel Fuel** 29
Parmjit Singh, Sandeep Kumar Duran and Inderpreet Singh
- 4 Studies on Properties of Biodiesel Prepared from Microalgae (*Chlorella* sp.)** 53
S.V. Kelaiya and P.M. Chauhan
- 5 Ultrasound-Assisted Biodiesel Production Using KI-Impregnated Zinc Oxide (ZnO) as Heterogeneous Catalyst: A Mechanistic Approach** 67
Ritesh S. Malani, Sohan Singh, Arun Goyal
and Vijayanand S. Moholkar
- 6 Experimental Evaluation of Cottonseed Biodiesel as an Alternative Fuel for Diesel Engine** 83
Pankaj S. Shelke, Nitin M. Sakhare, Subhash Lahane and N.G. Patil

Part III Thermochemical

- 7 Pyrolytic Characterization and Kinetic Analysis of *Camellia sinensis* (Tea) Seed Deoiled Cake** 97
Nabajit Dev Choudhury, Bichitra Bikash and Rupam Katak
- 8 Development of Nanobased Thermic Fluid: Thermal Aspects of New Energy System** 107
Shriram S. Sonawane and Vijay Juwar
- 9 Strategies for Producer Gas Cleaning in Biomass Gasification: A Review** 115
Haresh V. Makwana, Darshit S. Upadhyay, Jayesh J. Barve and Rajesh N. Patel

Part IV Biomass Management

- 10 Partial Replacement of Aggregates Using Agricultural Waste in Concrete Manufacturing** 131
Ranjeet Singh, Amit Arora, Gurmit Singh and Anand K. Tyagi
- 11 Characterization of Wood Apple Shell Particles** 139
O. Shakuntala, G. Raghavendra and S.K. Acharya
- 12 Governance of Sustainable Agriculture Schemes in India with Special Reference to Bio-fertilizer Project and Analysis** 147
Navreet and Ravneet Kaur

Part V Waste to Management

- 13 Sequencing Batch Reactor Technique for Municipal Sewage Treatment with Carbon Credits** 159
R.R. Marlar, Vigneshwaran Aiyappan, S.S. Rao and S. Bajpai

Part VI Integrated System

- 14 Convective Heat Transfer of Metal Oxide-Based Nanofluids in a Shell and Tube Heat Exchanger** 183
Nishant Kumar and Shriram S. Sonawane

About the Editors

Dr. Sachin Kumar has been working as a Deputy Director in the Biochemical Conversion Division at the Sardar Swaran Singh National Institute of Bio-Energy, Kapurthala, India. He completed his Ph.D. in Chemical Engineering from Indian Institute of Technology Roorkee, India. He has more than 12 years of research experience in Biochemical Conversion of Biomass to Biofuels including ligno-cellulosic ethanol, biogas, biohydrogen. During his career at SSS-NIBE, he has developed the state-of-the-art laboratory facilities for Biochemical Conversion of Biomass to Biofuels. He has completed three research projects and one consultancy project and actively engaged in two ongoing research projects. He is coordinating for one of the projects under Indo-Brazil bilateral collaboration from Indian side. His area of research is biofuels including bioethanol, biogas, biobutanol, biohydrogen, algal biomass, bioprocess engineering, enzyme technology, metabolic engineering. Dr. Sachin has published more than 50 papers in peer-reviewed journals, chapters and papers in conference proceedings, and 07 edited books. He has been granted one US patent and one filed patent in India. He is a recipient of 2016 ASM-IUSSTF Indo-US Research Professorship and selected as Bioenergy-Awards for Cutting Edge Research (B-ACER) Fellow 2016 by DBT and IUSSTF. He is serving as an editor, associate editor, and editorial board member of various peer-reviewed journals. He has coordinated three national and two international conferences and five national training programs.

Dr. Rajesh Sani is an Associate Professor in the Departments of Chemical and Biological Engineering and Applied Biological Sciences at South Dakota School of Mines and Technology, South Dakota. His research includes extremophilic bioprocessing of lignocellulose-based renewables for biofuels and bioproducts and bioprospecting of extremophilic microorganisms for developing more efficient and cost-effective biofuel (bioenergy) production technologies. Over the past 11 years, he has been the PI or co-PI on over \$12 million in funded research. Several of his accomplishments in research and advising include the following: (i) postdocs supervised (7); (ii) graduate students supervised (MS students, 10, and Ph.D., 6), and (iii) undergraduate students and K12 teachers supervised (over 35). He has one

patent and five invention disclosures, has published over 55 peer-reviewed articles in high-impact-factor journals, and has contributed several chapters. He is currently acting as editor and co-editor for three textbooks which will be published by Springer International Publishing AG. In addition, he has been a proposal reviewer and panelist for the Federal Agencies: (i) National Science Foundation, (ii) US Army Research Office, (iii) Department of Energy, (iv) US Geological Survey, and (v) User Facility—Environmental Molecular Sciences Laboratory. He also serves the Industrial Microbiology profession as “Biocatalysis Program Committee Member” of the Society for Industrial Microbiology and Biotechnology (SIMB), technical session chair at the Annual American Institute of Chemical Engineers (AIChE) and SIMB, an associate editor.

Prof. (Dr.) Y.K. Yadav received his Ph.D. in Energy Studies from the Indian Institute of Technology Delhi, and is currently Director of the Sardar Swaran Singh National Institute of Bio-Energy, Kapurthala, India. He has been actively engaged in research, teaching, consultancy, administration, and management in the field of renewable energy for more than two decades. He developed and taught renewable energy courses to undergraduate and postgraduate students at CCS Haryana Agricultural University, Hisar, India, and established a Renewable Energy Laboratory there. He has also contributed to the establishment of the Department of Energy at Tezpur University, Assam, India.
