

Advances in Intelligent Systems and Computing

Volume 910

Series editor

Janusz Kacprzyk, Systems Research Institute, Polish Academy of Sciences,
Warsaw, Poland

e-mail: kacprzyk@ibspan.waw.pl

The series “Advances in Intelligent Systems and Computing” contains publications on theory, applications, and design methods of Intelligent Systems and Intelligent Computing. Virtually all disciplines such as engineering, natural sciences, computer and information science, ICT, economics, business, e-commerce, environment, healthcare, life science are covered. The list of topics spans all the areas of modern intelligent systems and computing such as: computational intelligence, soft computing including neural networks, fuzzy systems, evolutionary computing and the fusion of these paradigms, social intelligence, ambient intelligence, computational neuroscience, artificial life, virtual worlds and society, cognitive science and systems, Perception and Vision, DNA and immune based systems, self-organizing and adaptive systems, e-Learning and teaching, human-centered and human-centric computing, recommender systems, intelligent control, robotics and mechatronics including human-machine teaming, knowledge-based paradigms, learning paradigms, machine ethics, intelligent data analysis, knowledge management, intelligent agents, intelligent decision making and support, intelligent network security, trust management, interactive entertainment, Web intelligence and multimedia.

The publications within “Advances in Intelligent Systems and Computing” are primarily proceedings of important conferences, symposia and congresses. They cover significant recent developments in the field, both of a foundational and applicable character. An important characteristic feature of the series is the short publication time and world-wide distribution. This permits a rapid and broad dissemination of research results.

Preface

This volume of proceedings provides an opportunity for readers to engage with a selection of refereed papers that were presented at the Fourth International Symposium on Intelligent Systems Technologies and Applications (ISTA'18). ISTA aims to bring together researchers in related fields to explore and discuss various aspects of intelligent systems technologies and their applications. This edition was hosted by PES Institute of Technology, Bangalore South Campus, India, during September 19–22, 2018. ISTA'18 was colocated with the International Conference on Applied Soft Computing and Communication Networks (ACN'18).

All submissions were evaluated on the basis of their significance, novelty, and technical quality. A double-blind review process was conducted to ensure that the author names and affiliations were unknown to TPC. These proceedings contain 20 papers selected for presentation at the symposium.

We are very grateful to many people who helped with the organization of the symposium. Our sincere thanks go to all the authors for their interest in the symposium and to the members of the program committee for their insightful and careful reviews, all of which were prepared on a tight schedule but still received in time. We are grateful to General Chairs for their support. We express our most sincere thanks to all keynote speakers who shared with us their expertise and knowledge.

We thank PES Institute of Technology, Bangalore, for hosting the conference. Sincere thanks to Dr. M. R. Doreswamy, Chancellor, PES University, and Dr. D. Jawahar, Pro-chancellor, PES University, for their valuable suggestions and encouragement. We would like to thank the organizing committee and many other volunteers who worked behind the scenes to ensure the success of this symposium. Dr. J. Surya Prasad, Dr. Sudarshan T. S., and Dr. Shikha Tripathi deserve special mention for their unwavering support. The EDAS conference system proved very

helpful during the submission, review, and editing phases. Finally, we would like to acknowledge Springer for active cooperation and timely production of the proceedings.

About the Editors

Sabu M. Thampi is a Professor at the Indian Institute of Information Technology and Management-Kerala (IIITM-K), Trivandrum, India. His main research areas are sensor networks, IoT, social networks, and video surveillance. He has authored and edited few books and published papers in academic journals and international proceedings. He has served as a guest editor for special issues in journals and as a program committee member for many conferences. He has co-chaired several workshops and conferences. He has initiated and is also involved in the organization of several annual conferences. He is a senior member of IEEE and a member of IEEE CS and ACM.

Ljiljana Trajkovic received the Dipl. Ing. degree from the University of Pristina, Yugoslavia, in 1974, the M.Sc. degrees in Electrical Engineering and Computer Engineering from Syracuse University, Syracuse, NY, in 1979 and 1981, respectively, and the Ph.D. degree in Electrical Engineering from the University of California at Los Angeles, in 1986. She is currently a Professor in the School of Engineering Science at Simon Fraser University, Canada. She served as 2007 President of the IEEE Circuits and Systems Society. She is General Co-Chair of SMC 2016 and HPSR 2014, Technical Program Co-Chair of ISCAS 2005, and Technical Program Chair and Vice General Co-Chair of ISCAS 2004. She served as an Associate Editor of the IEEE Transactions on Circuits and Systems and the IEEE Circuits and Systems Magazine. She was a Distinguished Lecturer of the IEEE Circuits and Systems Society. She is a Professional Member of IEEE-HKN and a Life Fellow of the IEEE.

Sushmita Mitra is a full Professor at the Machine Intelligence Unit (MIU), Indian Statistical Institute, Kolkata. She is the author of many books published by reputed publishers. Dr. Mitra has guest edited special issues of several journals, is an Associate Editor of “IEEE/ACM Trans. on Computational Biology and Bioinformatics”, “Information Sciences”, “Neurocomputing”, and is a Founding Associate Editor of “Wiley Interdisciplinary Reviews: Data Mining and Knowledge

Discovery". She has more than 75 research publications in referred international journals. Dr. Mitra is a Fellow of the IEEE, and Fellow of the Indian National Academy of Engineering and The National Academy of Sciences. She has served in the capacity of Program Chair, Tutorial Chair, Plenary Speaker, and as member of programme committees of many international conferences. Her current research interests include data mining, pattern recognition, soft computing, image processing, and Bioinformatics.

P. Nagabhushan, Director, Indian Institute of Information Technology, Allahabad is a Professor in Computer Science and Engineering, University of Mysore, Mysore. He has more than three and half decades of teaching experience. He is actively associated with various academic, statutory and professional bodies. He is the member of academic councils and Board of studies of several universities. He has successfully guided 28 numbers of Ph.D.s and has authored more than 500 numbers of Research Papers out of which more than 100 papers are DBLP indexed. The citation index of 1856 with H-index of 21 and i10 index of 53 reflects his academic accomplishments.

Jayanta Mukhopadhyay received his Ph.D. degree in Electronics and Electrical Communication Engineering from the Indian Institute of Technology (IIT), Kharagpur. He was a Humboldt Research Fellow at the Technical University of Munich in Germany for one year in 2002. He has published about 250 research papers in journals and conference proceedings in these areas. He received the Young Scientist Award from the Indian National Science Academy in 1992. Dr. Mukherjee is a Senior Member of the IEEE. He is a fellow of the Indian National Academy of Engineering (INAE).

Dr. Juan M. Corchado is a Spanish scientist, teacher and researcher. He is currently Vice President for Research and Transfer from December 2013 and a Professor at the University of Salamanca. He is Director of the Science Park of the University of Salamanca and Director of the School of Doctorate from the same university. He holds a Ph.D. in Computer Science from the University of Salamanca and also is also Doctor in Artificial Intelligence from the University of the West of Scotland. Corchado is also Editor-in-Chief of the magazine ADCAIJ and IJDCA.

Stefano Berretti is an Associate Professor in the Department of Information Engineering (DINFO) of the University of Firenze, Italy. He received the Laurea degree in Electronics Engineering and the Ph.D. in Informatics Engineering and Telecommunications from the University of Firenze, in 1997 and 2001, respectively. His current research interests are mainly focused on content modeling, retrieval, and indexing of image and 3D object databases. He is the author of more than 100 publications appeared in conference proceedings and international journals in the area of pattern recognition, computer vision and multimedia. He is in the

program committee of several international conferences and serves as a frequent reviewer of many international journals. Stefano is the member of GIRPR affiliated to the IAPR, and member of the IEEE.

Dr. Deepak Mishra pursued his Ph.D. at IIT Kanpur in the Electrical Engineering Department. His Thesis title was “Novel Biologically Inspired Neural Network Models”. Later he joined as a postdoc researcher at the University of Louisville, KY, USA in the field of signal processing and system neuroscience. After a brief stint 2009–2010 as a senior software engineer at CMC Limited, Hyderabad, he opted to work as an academic faculty at IIST, Trivandrum in 2010 and continued to work as Associate Professor in the Department of Avionics. He was also awarded Young Scientist Award from System Society of India for his research work in the year 2012. His research interest includes Neural networks and Machine learning, Computer vision and Graphics, Image and Video Processing. He has published research papers both in International and National Journal of repute and presented his research work in various international and national conferences.
